I am currently a second-year student at the University School of Automation and Robotics, Delhi, pursuing an undergraduate degree, I am majoring in Industrial Internet of Things. I am interested in Web Development and learning a new Programming Language. As a Web Developer, I am looking for a Full Stack Web Developer. I am always curious about new things and enjoy learning. I like to solve problems and fix errors. I like to build logic behind every problem to solve it efficiently. I am a detail-oriented person and I keep my goals and tasks organized to maintain productivity. The skill that I have attained from the dynamic environment and competitive university life define me, and I am looking forward to implementing and polishing them in any opportunity that I receive.
